OBJECTIVE

MCA student with hands-on experience in Web Application Development, Full Stack Development, and Database Management. Skilled in developing responsive web applications using HTML, CSS, JavaScript, Python, Flask, SQL, and REST APIs. Passionate about building scalable and user-centric applications, solving real-world problems, and continuously learning modern technologies. Seeking an opportunity to contribute as a Web Developer Associate while expanding my software development expertise.

TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python
- **Web Technologies:** HTML5, CSS3, JavaScript, Responsive Web Design
- **Backend & Frameworks:** Flask
- **Database:** Oracle SQL, SQLite
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, DBMS
- **Tools & Technologies:** Git, GitHub, VS Code, AWS
- **Operating Systems:** Linux (Basic – CLI, file handling), Windows
- **Currently Learning:** Machine Learning Fundamentals, AWS (EC2, S3, ECR), Jenkins, GitHub Actions, CI/CD Pipelines

EDUCATION

Master of Computer Applications (MCA) BMS Institute of Technology & Management, Bengaluru CGPA: 8.50	2025 – 2027
Bachelor of Computer Applications (BCA) Dr. B. B. Hegde First Grade College, Kundapura CGPA: 8.23	2022 – 2025
Pre-University Course (PUC) Varasiddi Vinayaka PU College, Keradi 72.66%	2020 – 2022

PROJECTS

Student Academic Portal:

- Developed a role-based academic management system using Python, Flask, and SQLite for managing student records, attendance, and assessments.
- Implemented secure authentication, QR-based attendance tracking, and real-time dashboards to improve operational efficiency.
- Designed scalable database schemas and backend modules supporting multiple user roles and academic workflows.

AgriPrice Portal:

- Developed a full-stack AgriPrice Portal using Python, Flask, and SQLite, enabling sellers to upload products with custom pricing while allowing buyers to view real-time seller-listed prices.
- Implemented product management, OTP verification, multilingual support, and dark/light mode, improving accessibility and user engagement.
- Strengthened platform security with secure authentication, role-based access control, and session management, delivering a scalable and reliable agricultural marketplace.

AI-Powered Traffic Analytics & Route Optimization System

- Developed a machine learning-powered traffic analytics platform using Python and Flask, processing transportation data across 10,000+ locations.
- Engineered a graph-based route optimization system capable of evaluating 2M+ route combinations using traffic, weather, and road network data to identify efficient travel paths.
- Built interactive traffic heatmaps, congestion prediction modules, and real-time route recommendation features to support smart mobility and transportation planning.

CERTIFICATES

- DBMS with Oracle PL/SQL Certification by SQE Systems & Solutions, Bangalore in association with BMSIT&M in 2026.
- Cloud Computing in AWS – Workshop Certificate of Participation by CertoMeter (2026).
- HackVerse 2.0 – National Level Hackathon Certificate of Participation by the Department of MCA, BMS Institute of Technology & Management, Bengaluru (2026).
- TCS iON Career Edge – Young Professional by Tata Consultancy Services in 2025.
