OBJECTIVE

MCA student at BMS Institute of Technology & Management with hands-on experience in full-stack web development using Python, Flask, React.js, HTML, CSS, MongoDB, and SQL. Foundational knowledge of C, Data Structures & Algorithms, Java, and basic OOP concepts. Experienced in developing web applications, integrating databases, and building responsive user interfaces. Seeking an entry-level Software Developer or Full Stack Developer role to apply and strengthen my technical skills.

EDUCATION

Master of Computer Applications (MCA) BMS Institute of Technology & Management, Bengaluru CGPA: 8.50	2025 – 2027
Bachelor of Computer Applications (BCA) Dr. B. B. Hegde First Grade College, Kundapura CGPA: 8.23	2022 – 2025
Class XII Varasiddi Vinayaka PU College, Keradi 72.66%	2020 – 2022
Class X Government High School, Nittur 66.33%	2019 – 2020

TECHNICAL SKILLS

Python • Java • React.js • MongoDB • Oracle SQL • GitHub • AWS • DevOps

PROJECTS

AI-Powered Traffic Analytics & Route Optimization System

Tech Stack: Python, Flask, Machine Learning, MongoDB, HTML, CSS

- Developed a machine learning-powered traffic analytics platform using Python and Flask to analyze transportation data across 10,000+ locations.
- Engineered a graph-based route optimization system capable of evaluating 2M+ route combinations using traffic, weather, and road-network data.
- Implemented traffic congestion prediction, interactive heatmaps, and route recommendation features for efficient travel planning.
- Integrated machine learning, database, backend, and visualization components into a unified web application.

Student Academic Portal

Tech Stack: Python, Flask, SQLite, HTML, CSS

- Developed a role-based academic management system using Python, Flask, and SQLite with separate workflows for Admin, Staff, and Students.
- Implemented individual session-based student dashboards, displaying personalized attendance, present/absent status, and academic information for the logged-in student.
- Integrated QR code-based attendance tracking, while Admin manages student records and Staff enters and manages student marks.
- Built centralized dashboards for students to monitor attendance and academic performance based on their individual records.

Personal Portfolio Website

Tech Stack: React.js, AWS EC2, GitHub Actions, GitHub, CI/CD, Webhooks

- Developed a responsive personal portfolio website using React.js to showcase projects, technical skills, certifications, and academic profile.
- Deployed and hosted the application on an AWS EC2 instance, gaining hands-on experience with cloud-based application hosting.
- Implemented a CI/CD pipeline using GitHub Actions and webhooks to automate application deployment whenever changes are pushed to GitHub.
- Configured automated build and deployment workflows, reducing manual deployment effort and maintaining consistent application updates.

CERTIFICATIONS

- DBMS with Oracle PL/SQL Certification** — SQE Systems & Solutions in association with BMSIT&M, 2026
- Cloud Computing in AWS** — Workshop Certificate, CertoMeter, 2026
- HackVerse 2.0** — National Level Hackathon Participant, BMSIT&M, 2026
- Diploma in Computer Application** — Karnataka Computer Education, 2022
